Hi Dianna, Mark,

1) Thanks for the update on the deed restrictions. I'll follow up with the PRPs to get you the requested info.

2) Also, what's the status on ADEQ's groundwater comments? I'm attaching EPA ORD's comments for your information:

Subject: Arkwood information

Dear Mr. Tzhone:

Attached are documents related to the Arkwood, Omaha, Arkansas site closure. I have located the work plan on what would be done and proposed remedial goals for soils on the site and in the railroad ditch. What I am not able to locate are the final closure reports with the final sample dioxin concentrations in the rail road ditch and on site and the surveyed location of the cap on the site. The contractor for the PRP should be able to supply this information. This information is necessary to finalizing the necessary deed restrictions. If you have questions or if you have difficulty with the attachments, please call or e-mail me.

Sincerely,

Dianna Kilburn
